Pediatric Upper Extremity Pre-Course for Surgeons & Therapists
Course Directors: (Peds)
Joshua M. Abzug, MD | Scott H. Kozin, MD | Dan A. Zlotolow, MD
A one-day course of pediatric upper extremity surgery and therapy that focuses on the upper extremity, including common, traumatic and congenital conditions.

Monday, March 26, 2018 (1:00 pm – 5:00 pm)
Upper Extremity Ultrasound Post-Course for Surgeons
Course Presenter:
Brian Jurbala, MD
The Philadelphia Hand Rehabilitation Foundation is proud to present the 20th Annual Hand Surgery Symposium, which will provide a comprehensive exploration of tried and true, as well as new treatments for the management of diverse upper extremity problems presented by an internationally renowned faculty. Didactic presentations will provide the framework, and cadaver surgery demonstrations will provide the picture of anatomy and techniques of management with unparalleled clarity. Exhibitor sponsored training labs will be offered as in previous years to provide demonstrations and hands-on experience with the latest in technology.

**TARGET AUDIENCE**

Hand, Orthopaedic, Plastic and General Surgeons, Sports Medicine Physicians, Fellows, Residents, Students, Physiatrists

---

**Saturday, March 24, 2018**

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The University of Colorado School of Medicine and the Hand Rehabilitation Foundation. The University of Colorado School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Colorado School of Medicine designates this live activity for a maximum of 30.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

At the conclusion of this activity, the participants will:

- Implement and perform the varying surgical techniques observed and practiced through the surgery demonstrations on hand and wrist conditions and injuries
- Evaluate the latest treatment strategies of small joint injuries and fractures
- Assess the most effective management of digital injuries and consider the options for treatment
- Improve their knowledge and understanding of the clinical presentation, management and rehabilitation of soft tissue injuries
- Develop the surgical skills acquired and practiced during the meeting
