

Hand Rehabilitation Foundation Presents

# 3 Day Educational Tutorial

## The **Ultimate** Learning Experience

Hand Rehabilitation Foundation is pleased to offer a 3-Day Educational Tutorial, a unique learning opportunity in the specialized field of hand and upper extremity surgery and therapy. Tutorial participants will shadow the surgeons and therapists in the office, in surgery and in therapy. In addition to observing some of the most well known names in the specialty, the tutorial is supplemented with structured learning opportunities including hands-on labs, didactic sessions and splint fabrication. Sessions can be customized to meet your needs and interests. For more information and to view the menu of educational topics and splint labs, go to our website, [www.handfoundation.org](http://www.handfoundation.org).

### Day 1

You will spend a day observing patients during office hours with a surgeon at the Philadelphia Hand to Shoulder Center. See first hand how physician and therapist collaboration impact patient healing and function.

### Day 2

Day two will be spent with the therapists of the Philadelphia Hand to Shoulder Center observing patient evaluations, hands-on therapy, splint fabrication and other therapeutic techniques and modalities.

### Day 3

Your last day will be spent observing in the operating room. Witness state of the art hand and upper extremity surgery performed by a Philadelphia Hand to Shoulder Center Surgeon.

Registration is limited and is offered on a first come first served basis. Two tutorial positions are offered monthly. Special hotel rates are available. Registration fee is \$600 and is non-refundable. Schedule is subject to change based on Physician availability.

For availability, information & registration, please contact the HRF office at 610-768-5958 or [hfr@handfoundation.org](mailto:hfr@handfoundation.org)

**Hand Rehabilitation Foundation** was established in 1975 as a non-profit organization to support research, education and training in hand and upper extremity surgery and rehabilitation. Among its other educational offerings, the Foundation sponsors an annual symposium known worldwide as The Philadelphia Meeting.

**Philadelphia Hand to Shoulder Center** is one of the most prestigious names in hand care in the world, specializing in surgery and rehabilitation of the upper extremities utilizing the latest, most advanced techniques. The surgeons and therapists conduct research, author text books, and publish articles in peer reviewed professional journals. Procedures and protocols developed at Philadelphia Hand To Shoulder Center are well known and used worldwide.
