Hand Rehabilitation Foundation

Evelyn J. Mackin Hand Therapy Fellowship

July 2024

Re: Application

Dear Fellowship Applicant:

Thank you for your interest in the Evelyn J. Mackin Hand Therapy Fellowship. I have enclosed an application form for you to complete, as well as a checklist for the supporting credentials and information required. Please note that before applying, a volunteer or short-term observation with a Certified Hand Therapist must be completed if you have no prior exposure or experience with Hand Therapy. I believe that this is essential to strengthen your decision to specialize in Hand Rehabilitation.

I have also enclosed an outline that describes the Fellowship program.

Please note that applications are currently being accepted for Fellowship positions beginning in January of 2025 and July 2025. The application deadline is September 1, 2024 for the January 2025 Fellowship and March 1, 2025 for the July 2025 Fellowship. Please send your completed application to my attention at the address below.

A selection committee with representatives from Thomas Jefferson University, the Hand Rehabilitation Foundation, and the Philadelphia Hand to Shoulder Center will review the applications, and interviews will be scheduled with selected candidates. All applicants will be notified of the committee's decision no later than November 15, 2024 for the January 2, 2025 start date and April 15, 2025 for the July 2, 2024 start date.

Thank you once again for your interest in the Evelyn J. Mackin Hand Therapy Fellowship. Please feel free to contact me directly at (215) 521-3030 x4441 or ldetullio@handcenters.com if you have any questions.

Sincerely,

Lauren M. DeTullio, OTR/L, CHT
Director, Hand Rehabilitation Foundation
Director Emeritus, Philadelphia Hand to Shoulder Therapy

**Hand Rehabilitation Foundation
Philadelphia Hand to Shoulder Center
Thomas Jefferson University College of Health Professions**

Purpose: Clinical training in hand management and patient care, including pre- and post- operative assessment, treatment planning, splinting, return-to-work programs and outcomes.

Training Expectations: The fellow will be expected to: 1) attend six surgical procedures, post operative follow-ups and rehabilitation sessions, 2) attend and participate at a weekly hand therapy educational meeting, 3) initiate/complete a case report for submission to the Journal of Hand Therapy.

Time Period: Full-time, six-month fellowship from January 2, 2025 through June 30, 2025 or July 2, 2025 through December 31, 2025.

Eligibility Requirements: Applicant must be a graduate of an accredited occupational or physical therapy program (bachelor's or master's degree), licensed, have a minimum of one year clinical experience preferably in the area of upper extremity rehabilitation. Applicants will be selected based on their demonstrated interest in the specialty of hand rehabilitation and their desire to advance their therapeutic skill in hand management. Preference will be given to applicants who evidence financial need and/or will practice in an underserved area.

Behavioral Objectives: A detailed set of 51 behavioral learning objectives has been established to guide the Fellow's learning experience.

Application Instructions: Applicants will be required to submit academic transcripts, three letters of recommendation, curriculum vitae and a letter stating prior hand therapy experience and goals. Prior to submission, all applicants should contact Ms. Terri Skirven, Director of Therapy, The Philadelphia Hand Center, to review application procedures.

The deadline for the January 2, 2025 start date is September 1, 2024. The Fellow will be notified no later than November 15, 2024.

The deadline for complete submissions is March 1, 2025 for the July 2, 2025 start date. The fellow will be notified no later than April 15, 2025.

Evelyn J. Mackin Hand Therapy Fellowship

Checklist for Processing Applications

- _____ Updated curriculum vitae/resume including continuing education courses attended

- _____ Completed application form

- _____ Personal statement (not to exceed 2-3 pages) regarding your interest in hand rehabilitation including the following:
 - ❖ How you became interested in Hand Therapy as a career focus and why short and long term goals
 - ❖ Expectations of the Fellowship
 - ❖ Self-evaluation in terms of strengths and weaknesses with regard to your hand therapy knowledge and skills
 - ❖ Plans to use knowledge and skills gained during the Fellowship to benefit underserved populations

- _____ Case description of a patient with a hand injury or condition which stimulated your interest or presented a challenge and how you handled it.

- _____ Three letters of recommendation from persons whose relationship with you has been in an academic or professional setting

- _____ Academic transcripts from professional education*

- _____ Examples of volunteer activities in Hand Therapy (if no employment experience)

- _____ Eligibility for OT or PT licensure in the state of Pennsylvania (must have NBCOT or APTA board certification)

* Kindly request these ASAP

Please describe your experience with hand/upper extremity diagnoses and procedures.

What percentage of your total work experience has consisted of hand patients?

0% _____ 25% _____ 50% _____ 75% _____ 100% _____

Please describe your learning style.

How many patients are you comfortable treating each day?

Please state why you think you are a good candidate for this fellowship.

EVELYN J. MACKIN HAND THERAPY FELLOWSHIP

FELLOWSHIP RESPONSIBILITIES

WEEKLY

- Reading assignments and preparation of key points
- Schedule weekly meeting with designated staff to review key points from readings
- Schedule weekly lab sessions with designated staff according to educational program schedule
- Splint lab sessions
- Schedule weekly meeting with senior staff to review patient cases, either new or problematic. Initially, all cases should be reviewed

MONTHLY

- Schedule one day per month to observe hand surgery office hours
- Schedule one day per month to observe surgery
- Meetings with Sue Toth Cohen (TJU Faculty) to plan potential projects (case study; research proposal) and to plan additional activities and mentoring opportunities within the PT and OT programs at TJU (frequency of subsequent meetings as needed)

PERIODIC

- Informal Performance Reviews
- Teaching opportunities at Thomas Jefferson University Occupational Therapy Program

OPTIONAL

- Attendance at Hand Surgery Fellows weekly conference
- Fieldtrips to area Hand Therapy clinics or Hand Centersh

EVELYN J. MACKIN HAND THERAPY FELLOWSHIP
EDUCATIONAL PROGRAM

WEEK 1

Topic: Anatomy and biomechanics of the hand

Read: Mackin, Callahan, Skirven, Schneider, Osterman: Rehabilitation of the hand: surgery and therapy. 5th edition. Mosby.2002; chapters 2, 3

Smith, (Speak with Janice)

Recc: Stanley BG, Tribuzi SM. Concepts in hand rehabilitation. F.A. Davis, Philadelphia, 1992. Chapter 1.

Watch videotape: UE Anatomy

Topic: Note writing, Billing, Scheduling patients, Splint checks, General orientation to fellowship

WEEK 2

Topic: Clinical exam of the hand

Lab: Perform clinical exam: Medical history, ROM, grip and pinch (manual), muscle length tests, edema, atrophy, wound/scar, palpation, ADL, assessment, goals, length of treatment. Also will review sterile techniques and overview of basic wound care.

Read: Rehab of the Hand - chapter 8, 11, 20

Recc: Magee DJ. Orthopedic physical assessment. 3rd edition.W.B. Saunders, Philadelphia, 1997. chapter 7.

Concepts in hand rehab - chapter 3.

Rehab of the hand- chapter 17

WEEK 3

Topic: Objective assessments

- Vascular assessment
- Grip/pinch on Dexter
- Manual muscle testing
- Sensibility
- Dexterity
- Pain
- Hand function
- Special tests will be discussed with specific diagnoses

Lab: Practice assessment techniques

Read: Rehab of the Hand- chapters 12, 16

Recc: Clinical assessment recommendations. ASHT 2nd edition, 1992.

WEEK 4

Topic: Physical Agents

Lab: Practical application of physical agents

Read: Rehab of the hand - chapter 107

Recc: Concepts in hand rehab - chapter 7, 8

WEEK 5

Topic: Therapeutic Exercise

Lab: Joint mobilization for the wrist and hand

Read: Concepts in hand rehab-chapters 7, 8
Articles in file- See Janice

WEEK 6

Topic: Wound healing as basis for hand therapy and management of wounds

- Stages of healing
- Management of wounds
- Types of wounds
- Stress application to healing wounds

Lab: Whirlpool set up and debridement techniques

Read: Rehab of the Hand - chapters 19, 20, 21;

Recc: Concepts in Hand Rehab. - chapt. 2, 6

Hardy M. The biology of scar formation. P T vol 69: 12, 1989.

WEEK 7

Topic: Splinting

Read: Rehab of the hand- chapters 15, 111, 112

Recc: Concepts in Hand Rehab-chapter 9.

WEEK 8

Topic: Joint Stiffness

Lab: Mobilization techniques for joint stiffness: CPM, serial casting, manual therapy techniques

Read: Rehab of the hand- chapters 61, 62, 114

Recc: Flowers KR, Michlovitz SL. Assessment and management of loss of motion in orthopedic dysfunction.

WEEK 9

Topic: Nerve compressions

Lab: UQ Screen, Neural tension testing; intro to nerve gliding;

Read: Rehab of the hand-chapters 7, 37, 39, 41, 45

Recc: Szabo RM. Nerve compression syndromes: diagnosis and treatment. SLACK, 1989, N.J.
Kasdan ML. Occupational hand and upper extremity injuries and diseases. Chapt 26, 27, 28

WEEK 10

Topic: Hand Fractures and joint injuries

Read: Rehab of the hand Chapters 23, 24, 25

Recc: Concepts in hand rehab. - Chapter 10 Skirven T. Rehabilitation after fractures of the hand.
Operative techniques in orthopedics, vol 7:2, 1997: pp 152-160.

WEEK 11

Topic: Tendon inflammatory conditions

Read: Rehab of the hand-chapters 55, 60, 78, 79

WEEK 12

Topic: Flexor tendon laceration and management

Read: Rehab of the Hand - chapters 26, 27, 28

Recc: Concepts in hand Rehab - chapter 12; Tendon and nerve surgery in the hand - Chapter 43.
Skirven T, Fedorczyk J. Tendon and nerve injuries. APTA study guide. 1995.

WEEK 13

Topic: Peripheral nerve injuries

Read: Rehab of the Hand - chapters 32, 33, 34, 35, 48, 49

Recc: Concepts in hand rehab - chapter 11

WEEK 14

Topic: Extensor tendon laceration/management

Read: Rehab of the Hand - chapters 30, 31

Recc: Concepts in hand rehab - chapter 12;
Hunter JM, Schneider LH, Mackin EJ. Tendon and nerve surgery in the hand: a third decade.
Mosby, Philadelphia, 1997. Chapter 43.

WEEK 15

Topic: Conservative and post-op therapy for OA and RA

Read: Rehab of the hand-chapters 95, 96,101

WEEK 16

Topic: Anatomy/biomechanics of the wrist

Lab: Clinical exam of the wrist

Read: Rehab of the hand-chapter 66

Recc: Berger RA: Anatomy and basic biomechanics of the wrist. JHT 9:2; 84-93, 1996.

Skirven T. Clinical exam of the wrist. JH T 9:2; 96-107, 1996

WEEK 17

Topic: Distal radius fractures and wrist conditions

Read: Rehab of the hand - chapters 67, 69

Recc: Journal of Hand Therapy, special issue on the wrist - vol 9:2, 1996.

WEEK 18

Topic: Pain syndromes; RSD

Read: Rehab of the hand - chapter 104, 105, 106

Recc: Journal of hand therapy - special issue on pain.

WEEK 19

Topic: Work capacity evaluation

Lab: Validity testing
BTE evaluation procedures

Read: Rehab of the hand - chapter 124
King, J: Assessing maximum effort in upper extremity functional testing.

Recc: Concepts in hand rehab - chapter 17
PT journal articles

WEEK 20

Topic: Ergonomics/work hardening

Read: Rehab of the hand - chapters 123, 124

WEEK 21

Topic: Fractures about the elbow

Lab: Mobilization of the elbow and elbow exam

Read: 75, 76

Recc: Orthopedic Physical Assessment-chapter 6
Morrey BF. The elbow and its disorders: chapters 10, 12, 23*, 25*, 26* (* = optional reading)

WEEK 22

Topic: Rehabilitation of the stiff elbow

Read: Rehab of the hand-chapter 77

WEEK 23

Topic: Intro to shoulder anatomy/biomechanics

Lab: Shoulder Exam

Read: Rehab of the hand, chapters 60, 80, 82

Recc: Orthopedic physical assessment - chapter 5

WEEK 24

Topic: Common shoulder problems and treatment

Read: Rehab of the hand - chapter 83
