Reconstructive Surgery of the Shoulder, Elbow, and Wrist

An intimate didactic and hands-on laboratory course
with limited registration

February 9-13, 2025

**The Viewline Resort Hotel
Snowmass Village, Colorado**

www.HandFoundation.org

COURSE DESCRIPTION

An up close and personal experience in the reconstruction and rehabilitation of the upper extremity from a world renowned faculty.

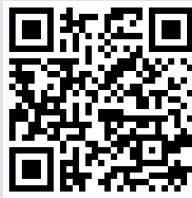

The course encompasses both acute fractures and secondary reconstruction. Clinical topics address and critically assess the latest clinical management of shoulder fractures, instability and replacement. Similarly, elbow topics range from complex trauma through contracture and other soft tissue problems to arthroplasty. The final two days emphasize the new developments in the treatment of distal radius fractures, including analysis and recognition of fracture patterns, optimization of fracture stability, options for fracture fixation, recognition and treatment of distal radioulnar joint injuries, treatment of associated carpal and soft tissue injuries. In addition, the course will cover prevention and treatment of complications as well as correction of malunions and both wrist and distal radioulnar joint arthroplasty. Didactic lectures, panel and interactive sessions, video surgery demonstrations and hands-on labs will provide the participant with the vital information to treat these problems.

Located in the heart of Snowmass Village Mall, the Viewline Resort Snowmass, a Marriott Bonvoy Property, is an incomparable vacation retreat. The Viewline Resort features ski-in/ski-out with onsite equipment rental and ski valet, an outdoor heated pool and hot tub, and a large fitness studio. Dining options include Starks' Alpine Grill, and an après-ski oasis at the Viewline Lobby Bar. Offering a full range of treatments and services, relax and rejuvenate at the Lupine Spa. Exemplary service and more all contribute to the total convenience you will experience when you stay at the Viewline Resort Snowmass.

Friday, February 14, 2025 | 6:30am – 11:45am

Limited space with scholarships available. Application on website:
www.handfoundation.org/conferences or contact Iristine@handfoundation.org.

Sponsored by TriMed

Course Objectives

1. Define complications of traumatic injuries to the upper extremity, know how to avoid them and how to treat them when they occur.
2. Review complex shoulder injuries including fractures, instability, rotator cuff injury, and arthritis; recognize appropriate surgical reconstructive options.
3. Evaluate and classify complex elbow fractures and determine the best course of treatment.
4. Identify and perform the varying surgical options for wrist and hand fractures, ligament, and nerve injuries.
5. Discuss how to optimize surgical outcomes via appropriate upper extremity rehabilitation principles.
